The 186 placement offices at the 153 colleges and universities that participate in the *Salary Survey* are divided into seven geographic regions. The placement offices listed comprise the Middle Atlantic Region.

The data are based on salary offers made to students graduating between September 1, 1987 and August 31, 1988. Tables on pages 2 through 5 list data on both regional and national levels for the interim period (February 1 through March 7) and cumulatively (September 1 through March 7). The block tables contain data for the interim period only.

### SCOPE AND NATURE OF THE SURVEY

The scope, nature, and coverage of the CPC *Salary Survey* are particularly important to the interpretation and proper use of the statistics.

Offers are reported from employing organizations in business, industry, government, and non-profit and educational organizations. The offers are base starting salary offers and do not include fringe benefits or overtime. The data cover a broad range of functional positions, except teaching. Confidentiality is maintained for the individual, the college, and the employer.

The *Survey* reports offers, not acceptances, with no limit on the number of offers per student. Therefore, offers in the study cannot be equated with actual hires, and when the economic climate changes substantially, the ratio of offers to hires usually changes also, making comparison with other years no longer valid. In those categories where offers are relatively few, the data should be regarded only as an indication.
